Mission:

To improve life for the people of Arizona and beyond through education, research, creative expression, and community engagement.

Description:

The University of Arizona in Tucson, including its branch-campuses in Sierra Vista and downtown Phoenix, is a land-grant, doctoral research university ranking among the nation's best public universities. Its research and development expenditures place it among the nation's top public universities and it is a member of the Association of American Universities. It offers a broad array of programs leading to degrees from baccalaureate through the doctorate for a total student body enrollment of 38,052 full-time and part-time students. As a land-grant university, it maintains programs in production agriculture and mining and serves the State through its cooperative extension services, technology transfer, economic development assistance, and cultural programming. The University provides distinguished undergraduate, graduate, and professional education; excels in basic and applied research and creative achievement; and promotes the integration of the product of these activities and achievements of regional, national, and international significance into everyday life.

Strategic Issues:

Issue 1 Prepare Arizona's Youth and Ensure Access and Opportunity

We will collaborate with educational partners (P-14) to prepare students for University success and support education in Arizona by preparing more teachers, especially in STEM fields, while targeting underserved areas first. We will improve access by increasing enrollments and financial aid, both need and merit-based. We will serve our growing student population by providing integrated state-of-the-art technological support.

Issue 2 Engage and Graduate Students Who Will Contribute to the State, Nation, and World

We will educate all of our students to become creative, productive, and engaged members of society by providing solid grounding in core skills, broad knowledge across disciplines, expertise in areas of special focus, and the ability to generate, evaluate, and integrate new knowledge. We will respond to the State's shortages of health care providers by expanding educational programs in high priority areas. In doing so, we will expand course and major availability, improve retention and graduation rates, and improve our communications infrastructure.

Issue 3 Provide World-Class Research That Improves the Human Condition in Arizona and Beyond

We will build on our national leadership in interdisciplinary and collaborative research and lead the nation in research and outreach activities that are critical to our State's future, with particular emphasis on the following areas: climate, environmental, water and energy sustainability; Southwest, native American, borderlands, and Latin American studies; biosciences and biotechnology; optics; space exploration and observation; creative arts, languages and language acquisition; law, public policy and entrepreneurship; biomedical and behavioral health; and youth development programs.

Issue 4 Engage the People of Arizona

We will contribute to the richness and vibrancy of the community, serve as an incubator and magnet for talent, develop partnerships with public, private, and non-profit sector organizations, and share research with and provide direct services to the people of Arizona through technology transfer, Cooperative Extension programs, development of the Phoenix Biomedical Campus, and provision of clinical health care services throughout the state, to name a few.

Mission:

To make knowledge generated at the University of Arizona more accessible and more relevant to Arizona's citizens, to the nation at large and to the global community, and to inspire in each of these connections the parallel desires to learn and to create beneficial change, both in partnership with the University of Arizona.

Description:

The Office for Academic Outreach facilitates the efforts of University of Arizona faculty in integrating their teaching, research, and service missions, and in translating and advancing those efforts to broader audiences. Outreach does not exist as an independent administrative function; rather, it serves the efforts of University faculty across the departments and colleges, and helps create the opportunity for impact in our communities and abroad.

Mission:

To provide effective and transparent promotion and support for the research and graduate-education efforts of University of Arizona faculty and staff and to encourage practices that minimize risks to our investigator-scholars, to human and animal research subjects, and to the University.

Description:

The University of Arizona through its organized research unit provides critical world-class research and discovery, intensive and relevant graduate education, and connects its activities with the community's needs especially as we aspire to become one of the ten best public research universities. The University's organized research unit also fosters technology transfer and connection to the business community, with a particular emphasis on promoting a thriving economy and high quality of life for Arizona. The organized research unit also serves as the administrative home for most of the University's public museums.

Mission:

To improve life for the people of Arizona and beyond through education, research, creative expression, and community engagement.

Description:

The College of Agriculture and Life Sciences coordinates undergraduate and professional education for a wide range of career opportunities within six general subject areas: animal systems; environment and natural resources; family, youth, and community; human nutrition; food safety and health; marketing, trade, and economics; and plant systems. Education in the professional knowledge area is combined with foundation courses in the natural and social sciences, communications, and the humanities to develop a well rounded academic experience offering majors leading to careers associated with the college subject areas. Programs include on-campus instruction and distance education in cooperation with other institutions. The college awards B.S., M.S., and Ph.D. degrees in 18 fields of study. Faculty members generally have joint appointments in a parallel Agricultural Experiment Station.
